

ASBMB Student Chapters Outreach Grants Summary Report

Please use the questions listed below to provide an update on your program's accomplishments and future plans.

OVERALL

1. Describe what your program accomplished, in particular how it has brought science to the greater community.

GOALS

2. Was the overall aim of your program met? Why or why not?
3. If your program has changed from what you initially proposed, what was the cause, and what was your response? *Leave blank if not applicable*

ORGANIZATION

4. In terms of preparation and execution of the activity or activities in your program, what approaches worked well? What areas could be improved? How will you incorporate these improvements into your program?
5. Provide an itemized budget detailing how the \$500 awarded to your institution was spent.
 - a. Were the funds sufficient to support your program?
 - b. Did you secure additional funding from other sources?

PARTICIPANTS

6. Regarding any non-confidential data you may have collected on the participants in your program:
 - a. How many participants/attendees were there in your program?
 - b. What was the makeup of your participants (gender, ethnicity, geographic location, etc.)?
 - c. What sort of feedback (either quantitative or qualitative) have you received from participants?
7. How did participation align with your expectations?
8. How are you planning to follow up with your participants?

MOVING FORWARD

9. Explain how your chapter will continue its involvement in outreach activities.
10. How might the Seed Grant program be improved going forward?

ADDITIONAL COMMENTS

11. Please address any issues that have not been covered above.
